Virtual WINE TASTING

Bidding 2021 Farewell & Welcoming 2022

Monday, December 27th, 2021
7:00PM EST

Help us celebrate the work of our foundation during these unusual times. With your contribution we aim to continue funding research projects earmarked to find cause and cure for all dreaded blood diseases. Dr. Renier Brentjens, a 1999 Endowed LSLF Fellow at MSKCC has been involved in the development of immunotherapy for leukemias and lymphomas. Research in these diseases are stalking horses for therapeutic developments applicable to other cancers as well. As a result, immunotherapy is now being used to treat a variety of other types of cancers. These successes reinforce our belief that funding fundamental and translational research is of utmost importance. Progress takes innovation, patience, time, expertise and money. Our perseverance promises to improve the outcomes in other lethal diseases.

Zoom link will be sent via email before the event. **Please include your email address with your reply.** The event is meant to teach and entertain and includes active participation. A wine connoisseur/sommelier will be guiding you along the way.

LSLF VIRTUAL WINE TASTING

PRICE: \$175 PER SHIPMENT
FROM THE BROOKLYN WINERY
(must be 21+ to enjoy the wine)

**IN ORDER TO RECEIVE SHIPMENTS,

GRATITUDE

We offer great appreciation for the partnership and generosity of our longstanding and new supporters. We partnered for the first time with Arlene Regan to support the First Annual Kevin Regan Memorial Golf Outing. In memory of 47-year-old Kevin who succumbed to leukemia this past year, leaving Arlene and their two young children Sami and Finn. Like the Strauss family many years ago, Arlene's inspiration for this event resulted in a highly successful event, with 150 participants and a grant in Kevin's name. Look forward to a second outing in July 2022. We welcome Arlene now to the LSLF Board.

We remain thankful for each of you who continues to donate, even as the pandemic precluded in person events. Special thanks to the **Peter & Jeri Dejana Foundation** which contributed, as if there had been an annual Bike Tour/Bay Walk. Though this year's event was cancelled, we hope to ride again next fall.

And we mourn the loss of several who have been so helpful to our organization. **Elysse Hecht**, an active volunteer and **Roberta Berger**, a valued Board member from the beginning, each offered so much to the organization. Their support continues thanks to gifts they made via their wills.

We are sad to share that **Walter Kissinger**, in many ways the instigator for our foundation, died this year after a long and fascinating life. His first contribution in 1986 came with a note encouraging the Strauss family to create a foundation. His generosity continued throughout the years and even in death, as his family has continued his support.

We continue to see how the very early research that the LSLF Discovery Grants have supported can grow up to make a real difference in the lives of families living with cancer. Our Medical Board is in progress on grant decisions and we look forward to sharing soon both the selections and the latest news that comes from earlier research we have funded, made possible only thanks to your support.

With great hopes that we come together in varied ways in person next year.

Evelyn I. Strauss
